## Adding and Subtracting Worksheet-1

1) Add/Subtract the following:

a)  $23 + 5 = \underline{\quad}$

b)  $39 - 9 = \underline{\quad}$

2) There were 26 birds in a cage. 12 of them flew away. How many birds are left now?

3) In an ice-cream shop, if there are 20 strawberry ice-creams, 34 chocolate ice-creams and 45 chocolate vanilla ice-creams, find the total number of ice-creams available in the shop?

4) Observe the table given below and answer the following questions:

|       | Number of Easter eggs collected |
|-------|---------------------------------|
| Alice | 32                              |
| Jane  | 27                              |

a) How many Easter eggs did Alice and Jane collect altogether?

b) Who collected more eggs and by how much?

5) Fill the missing numbers.

a)  $15 + \underline{\quad} = 25$

b)  $43 + \underline{\quad} = 45$

6) Solve and represent the addition statement on the number line.

$$3 + 4 = \boxed{\phantom{00}}$$

7) Kate has to water only the flowers that add up to numbers greater than 100. Circle the flowers with sum greater than 100.

8) Write a subtraction statement with the following numbers and mark them on the number line.

80, 60, 20

9) Write true or false for the correct addition fact with the help of the number line.

a)  $61 + 5 = 66$       \_\_\_\_\_

b)  $60 + 5 = 64$       \_\_\_\_\_

10) Jerry had 64 crayons. He gave 22 to Sam. How many crayons does he have now?

When you learn math  
in an interesting way,  
you never forget.

Math the right way

**20+ Countries**

Present across USA, UK,  
Singapore, India, UAE & more.

## Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

**ANSWERS**

|     |  |
|-----|--|
| 1)  | a) 28<br>b) 30                             |
| 2)  | 14 birds                                   |
| 3)  | 99 ice-creams                              |
| 4)  | a) 59<br>b) Alice collected more by 5 eggs |
| 5)  | a) 10<br>b) 2                              |
| 6)  | 7  |
| 7)  | $20 + 81$<br>$90 + 40$<br>$36 + 74$        |
| 8)  | $80 - 20 = 60$ OR $80 - 60 = 20$           |
| 9)  | a) True<br>b) False                        |
| 10) | 42 crayons                                 |

## FUN FACT

1. Adding zero to any number gives the number itself. For example,  $14 + 0 = 14$ .
2. The terms such as "Minus", "Less", "Difference", "Decrease", "Take Away" and "Deduct" mean that you need to subtract one number from the other.
3. When 1 is subtracted from any number, you get the previous number. For example,  $5 - 1 = 4$ .
