Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

FUN FACT

1. The word "Decimal" is derived from the Latin word Decimus which means one-tenth.
2. When we are going towards the left of a decimal point, each place is ten times greater than the previous place digit.
3. When we are going to the right of one's place, we have tenths ($1/10$) and to the right of tenths, we have hundredths ($1/100$) and so on.
