Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

FUN FACT

1. Do you know that when we subtract 0 from any number, the difference is the number itself? For example, $8 - 0 = 8$.
2. When 1 is added to any number, you get the next number, or the successor. For example, $6 + 1 = 7$.
3. Words such as "Minus", "Less", "Difference", "Decrease", "Take Away" and "Deduct" mean that you need to subtract one number from the other.
