Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

FUN FACT

1. The word [fraction](#) has its origin from the Latin word "fractio", meaning "to break".
2. The LCM of denominators is needed to add or subtract two fractions of different denominators.
3. If you have a common denominator for the terms while adding or subtracting fractions, then you can simply perform the operations on the [numerators](#) and retain the [denominators](#).
