## Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

**ANSWERS**

Q.1)	38 candies
Q.2)	a.) \$30 b.) Toy car
Q.3)	58 bananas
Q.4)	41 fish
Q.5)	$999 + 100 = 1099$
Q.6)	529 cookies

Q.7)	943 people
Q.8)	\$527
Q.9)	151 flowers
Q.10)	$999 + 1000 = 1999$

## FUN FACT

1. Do you know that when we add 0 to any number, the sum is the number itself? For example,  $568 + 0 = 568$ .
2. When 1 is added to a number, we get the next number, or the successor. For example,  $140 + 1 = 141$ .
3. Do you know what carry over means? It is a digit that is transferred from one column of digits to another column. For example, when 6 and 7 are added to make 13, the "3" is written in the same column and the "1" is carried to the column to the left.
