Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

ANSWERS

Q.1)	497 cakes
Q.2)	37 sea turtles
Q.3)	162 apples
Q.4)	80,941
Q.5)	$215
Q.6)	70 bees

Q.7)	783 students
Q.8)	552 books
Q.9)	$174
Q.10)	955 tourists

FUN FACT

1. Do you know that when we add 0 to any number, the sum is the number itself? For example, 568 + 0 = 568.
2. When 1 is added to a number, we get the next number, or the successor. For example, 140 + 1 = 141.
3. Do you know what carry over means? It is a digit that is transferred from one column of digits to another column. For example, when 6 and 7 are added to make 13, the "3" is written in the same column and the "1" is carried to the column to the left.
