FUN FACT

1. Do you know that when we add 0 to any number, the sum is the number itself? For example, 8 + 0 = 8.
2. When 1 is added to any number, you get the next number, or the successor. For example, 6 + 1 = 7.
3. The order in which you add a group of numbers doesn't matter, the answer is the same. For example, 2 + 5 + 3= 10; and 5 + 3 + 2= 10.
