Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

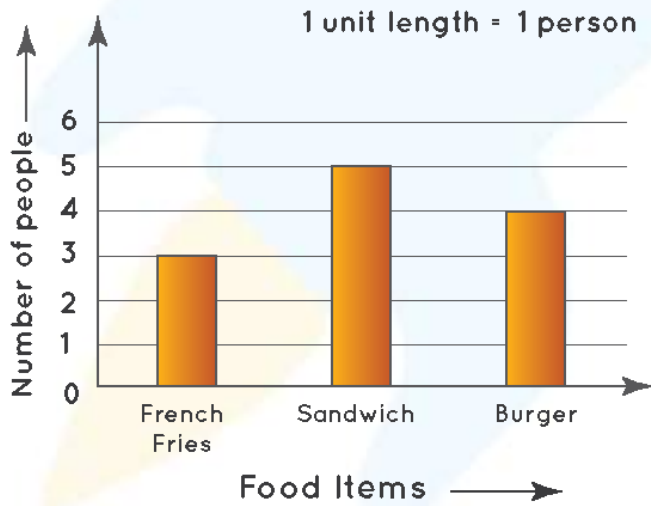

- Barbara Cabrera

Food Item	Number of people								
French Fries	3								
Sandwich	5								
Burger	4								

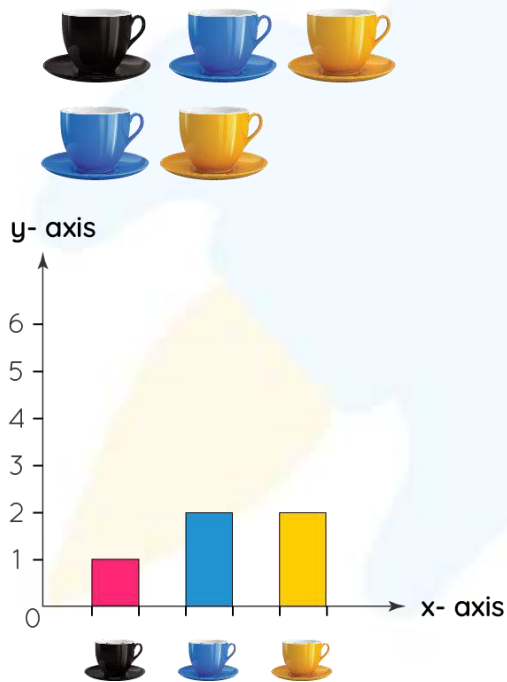

8.

9.

a.

10.

FUN FACT

1. Bar graphs are one of the examples of data handling.
2. Bar graphs are an excellent tool when representing data that are independent of one another and don't need to be in any specific order while being represented.
3. The bars provide a visual display for comparing quantities in different categories.
