   5b.) 10 cents + 6 cents = 16 cents
Q6.) Count the coins and write the correct answer.

Solution:

$30\,\text{¢} + 30\,\text{¢} + 30\,\text{¢} + 30\,\text{¢} = 120\,\text{cents (¢)}$

Q9.) Jane has 30 pennies in her bag and Ann has 5 dimes in her bag. Can you check the value in cents and tell who has more money?

Solution:

30 pennies = 30 cents; 5 dimes = 50 cents. We can see that 50 cents are more than 30 cents. Therefore, Ann has more money.

10.) Jose bought one donut and an apple pie. How many cents did he pay to the shopkeeper?

Solution:

The price of a donut = 15 cents. The price of an apple pie = 30 cents. Therefore, Jose paid 15 + 30 = 45 cents to the shopkeeper.
