Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect.

She is extremely patient and generous with Miranda."

FUN FACT

- 1. By comparing fractions, we can know which fraction is larger or smaller.
- 2. If the denominators are the same, then we compare the numerators. If the numerator is greater for one of the fractions, then that fraction is greater than the other.
- 3. If the numerators are the same, then the fraction with the larger denominator is smaller.
