Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect.

She is extremely patient and generous with Miranda."

FUN FACT

- 1. When we arrange the numbers in ascending order, we compare two numbers and write smaller one first.
- 2. When we arrange the numbers in descending order, we compare two numbers and write larger one first.
- 3. When the symbol < is used twice as <<, it indicates much less than.
