The image shows a collection of colorful toys scattered on a light blue surface. To the right of the toys is a yellow board with the text "HOW MANY?" at the top. Below the text are two columns of circular holes. The first column has five holes, and the second column has four holes. Some of the toys are already placed in the holes: a ball in the top-left hole, a kite in the top-right hole, a pinwheel in the second hole of the second column, a car in the third hole of the second column, and a rocket in the bottom-right hole.

Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera
