## Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

## FUN FACT

1. Regrouping is another word for 'carry over' in addition and 'borrowing' in subtraction.
2. Do you know that when we subtract 0 from any number, the difference is the number itself? For example,  $17 - 0 = 17$ .
3. When 1 is added to any number, you get the next number, or the successor. For example,  $36 + 1 = 37$ .
