Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

**ANSWERS**

1)	b.
2)	b.
3)	1991
4)	No
5)	Odd numbers - 3725, 5673 Even numbers - 4664, 6782
6)	a.

7)	b.
8)	b.
9)	a.
10)	b.

FUN FACT

1. Subtracting two odd numbers, gives an even number. For example, $73 - 71 = 2$.
2. Subtracting two even numbers, gives an even number. For example, $86 - 72 = 14$.
3. Subtracting an odd number from an even number, gives an odd number. For example, $86 - 71 = 15$.
