Fraction Word Problems Worksheets

- 1) A pumpkin pie was cut into 6 pieces. Out of that 5 pieces were eaten. What fraction of the pie was left behind?

- 2) Shirley has 15 apples. She uses 6 apples to prepare apple juice and the rest of them to prepare fruit salad. What fraction of apples were used to prepare apple juice?

- 3) Amy had a collection of 9 stamps. She kept 3 stamps in a book and 6 stamps in a file. What fraction of stamps were kept inside the book?
- 4) Jim has 18 chocolates. He gives one third of them to his friend. How many chocolates is Jim left with?

5) Mark has a collection of 24 shirts. He lost one fourth of them. How many shirts did he lose?

6) In the month of April Emily was out of the town for two-fifths of the days. For how many days was Emily in the town?

7) There are 70 cars parked in a garage. Three-fifths of the cars were small cars and the rest were big cars. How many big cars are there in the garage?

8) Lisa spent one-fifth of the time doing her math homework and two-fifths of the time doing science homework and the rest of the time to draw a picture. What fraction of the time did she spend to do math and science homework together?

9) Out of 200 children in a school three-fifths are girls. How many boys are there in the school?

10) In an apartment complex out of 400 people, five-eighths of the residents worked out at the gym and the rest of them went for a jog. How many residents worked out at the gym?

Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

**ANSWERS**

1)	$\frac{1}{6}$ of the pumpkin pie was left behind
2)	$\frac{6}{15}$
3)	$\frac{3}{9}$
4)	12 chocolates
5)	6 shirts
6)	18 days

7)	There were 28 big cars in the garage.
8)	$\frac{3}{5}$
9)	80 boys
10)	250 residents

FUN FACT

1. The word 'Fraction' originated from a latin word 'Fractio' which means 'breaking'
2. Fraction always applies when all the parts are equal.
3. A fraction represents a whole number divided into equal parts.
