2nd Grade Graphing Worksheet

Q1. How many ice creams were sold on Sunday?

Ice creams sold over the week

Q2. The bar graph shows flowers in William's garden.

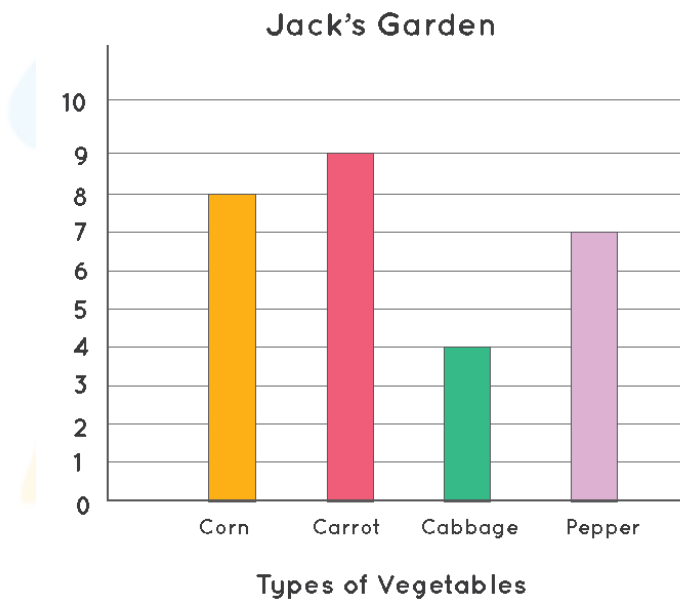

Which flowers are greater in number? -----

Q3. A spelling competition was held in a section of grade 1. The pictograph given below shows the top four scores of the competition.

Students	Results
Justin	
William	
Jenny	
Rusty	

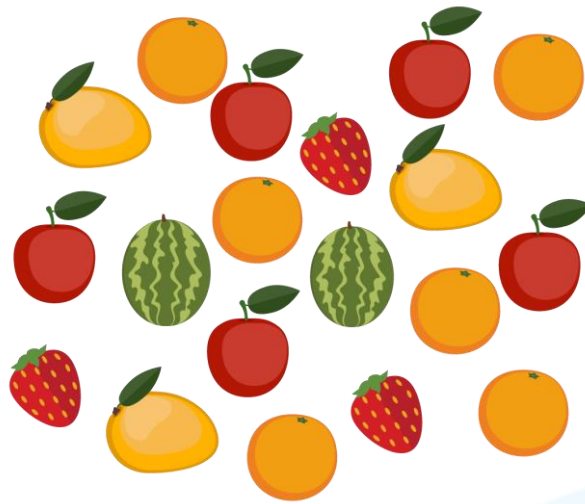

Represent the above information using a bar graph.

Q4. The following bar graph shows the vegetables grown by Jack in his backyard.

How many vegetables did Jack grow in total? _____

Q5. Liza went to the market to buy different types of fruits.

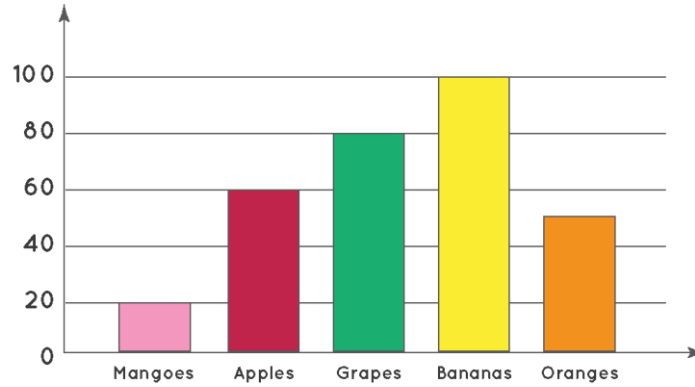

Q6. Sylvia went shopping and bought 9 party balloons, 6 bows and 4 baskets for a party at home. Draw a bar graph to represent the same.

Q7. The number of mathematics book sold by a shopkeeper on five consecutive days is shown below:

Days	Number of books sold
Monday	10
Tuesday	9
Wednesday	7
Thursday	12
Friday	8

Draw a bar graph to represent the above information.

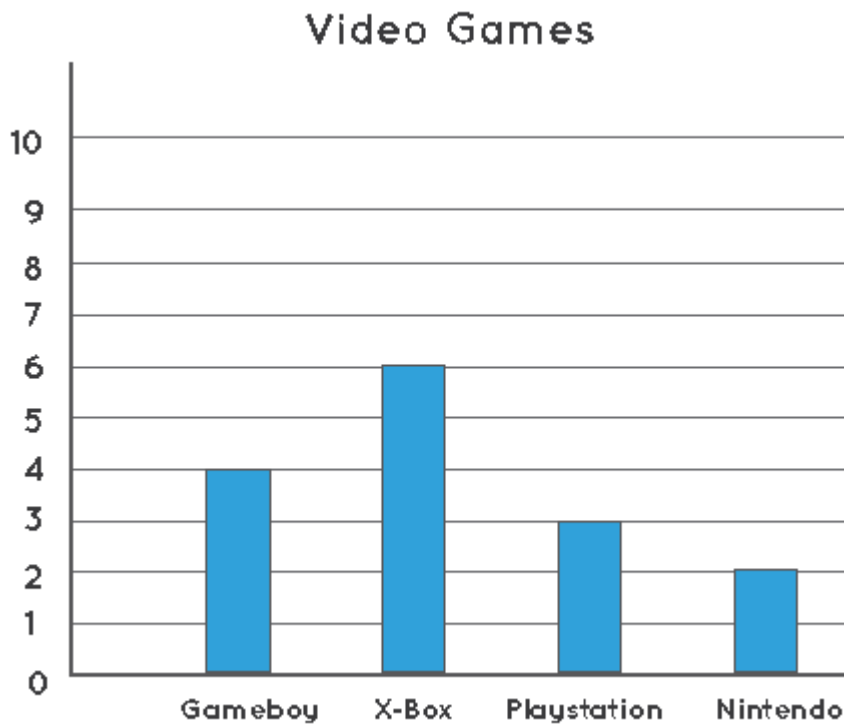

Which is liked the most? _____

Q9. How do you make graphs?

- a. By using scale
- b. Without using scale

Q10. Look at the bar graph.

Which video game is the most popular? _____

**When you learn math

Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

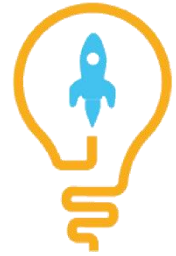

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

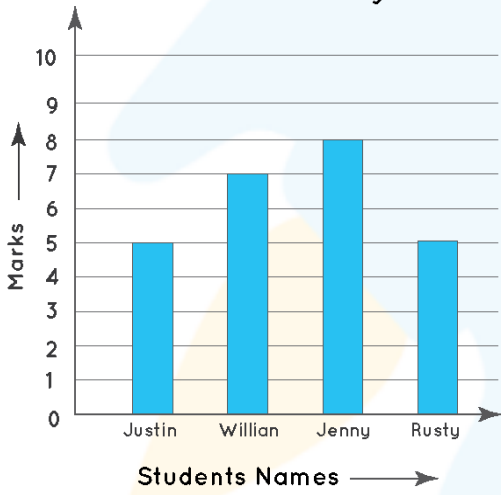

- Barbara Cabrera

ANSWERS

1)	90										
2)	Purple										
3)	<p>1 unit length= 1 mark</p>  <table border="1"><thead><tr><th>Students Names</th><th>Marks</th></tr></thead><tbody><tr><td>Justin</td><td>5</td></tr><tr><td>Willian</td><td>7</td></tr><tr><td>Jenny</td><td>8</td></tr><tr><td>Rusty</td><td>5</td></tr></tbody></table>	Students Names	Marks	Justin	5	Willian	7	Jenny	8	Rusty	5
Students Names	Marks										
Justin	5										
Willian	7										
Jenny	8										
Rusty	5										
4)	30										

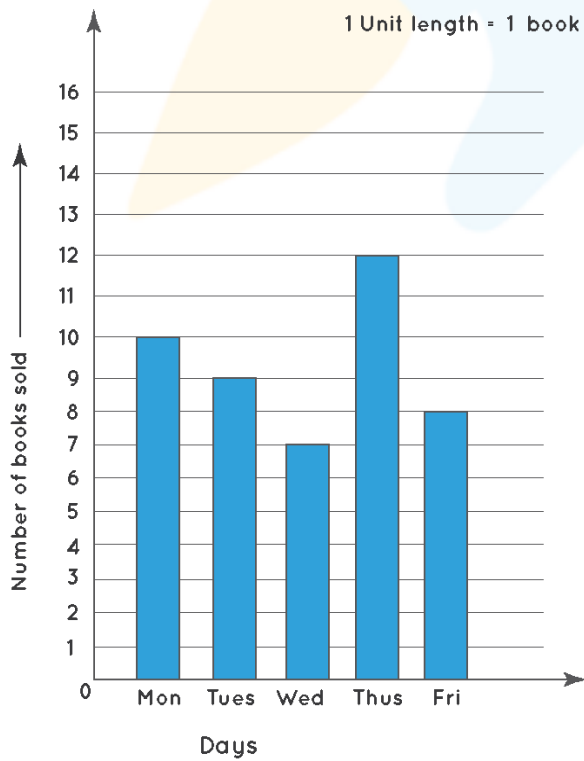

5)

6)

7)

8)	Bananas
9)	b.
10)	X-Box

FUN FACT

1. The graphs can be plotted vertically (bars standing up) or horizontally (bars lying flat from left to right), but normally we use vertical bars.
2. All bars must share a common base.
3. If the frequency of data is very large, then bar graphs are always advisable since pictographs become time-consuming and very difficult to make.
