Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

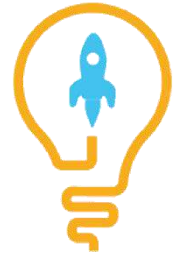

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

6)

	1	2	3	4	5
					
					
					

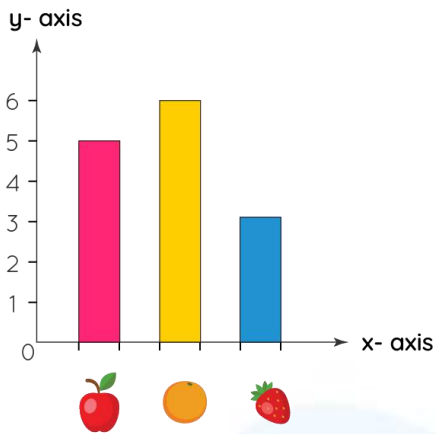

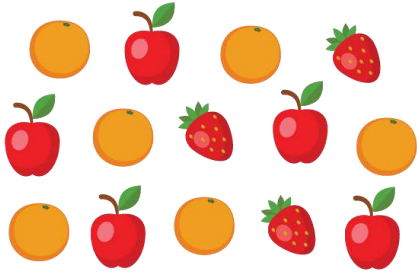

7)

8)

a.

9)

10)

	1	2	3	4	5
					
					
					
					

FUN FACT

1. The graphs can be plotted vertically (bars standing up) or horizontally (bars lying flat from left to right), but normally we use vertical bars.
2. All bars must share a common base.
3. If the frequency of data is very large, then bar graphs are always advisable since pictographs become time-consuming and very difficult to make.
