Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

ANSWERS

1) a.) $36 < 86$ b.) $98 > 85$	2) a.) True b.) True c.) False	3) Jack
4) Greater than	5) $89 > 74$	6) Car number 43
7) $\text{Ann} < \text{Jane}$	8) a.) 61 b.) 98	9) Tom
10) Sam		

FUN FACT

1. The symbol $>$ is used for comparing numbers and values. The rule is that the wide-open side of the sign always faces the bigger number, whereas the closed end points towards the smaller number.
2. Have you heard about the alligator method? Imagine the symbols ($<$ and $>$) to be the mouth of an alligator, and the numbers on each side as the little fish. Now, the alligator will always want to have a greater number of fish. For example, $6 > 3$.
