Line plot worksheets 3

Martha collected data from her classmates about their favorite colors and plotted the data on a line plot. Answer the following questions.

Favourite Colors

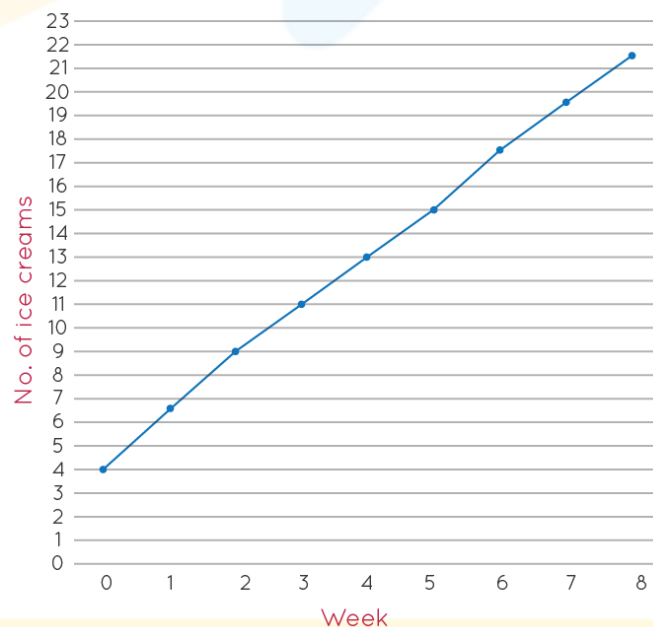

Colors

1. How many students answered "blue"?
2. How many students answered "pink"?
3. Which colors received only two votes?
4. What color(s) received the least amount of votes?
5. What color(s) received the highest amount of votes?

Diana collected data from her ice cart about the number of ice creams sold per week and plotted the data on a line plot. Answer the following questions.

Weekly Sale

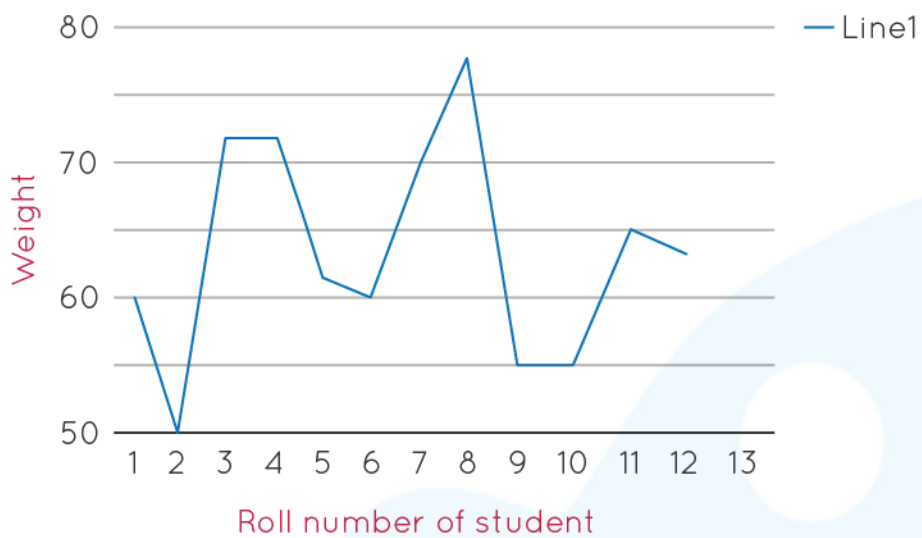

- 6) How much was the sale by 3 weeks?
7) How much was the sale in the seventh week alone?
8) Did the sale increase or decrease with time?
9) True or false: By the eighth week, the ice cream sale had increased more than five times in comparison to the first week?
- 10) Data from a health camp was conducted for children in a class, up to roll number 12. The weight (in pounds) of 12 students was recorded. Make a line plot to show the data.

60	50	72
72	62	60
70	78	55
55	65	64

Answer:

Weight in pounds for 12 students in a class

Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

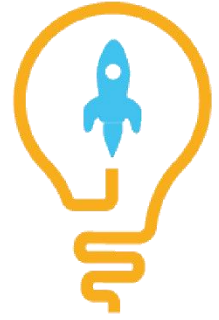

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

**ANSWERS**

1)	3
2)	5
3)	Green, and black
4)	Orange
5)	Pink
6)	11
7)	19.5
8)	Increased
9)	True
10)	

FUN FACT

1. 1637 in two works by Descartes.
2. Cartesian coordinate system is a coordinate system used to place points on a cartesian plane using two numbers, usually called the x-coordinate and the y-coordinate.
3. The name Cartesian comes from the French mathematician and philosopher René Descartes, who worked to merge algebra and Euclidean geometry.
