Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

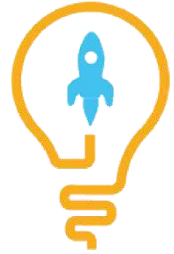

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

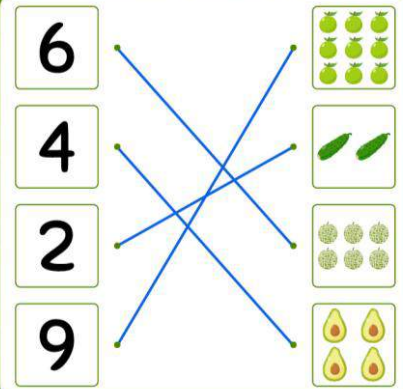

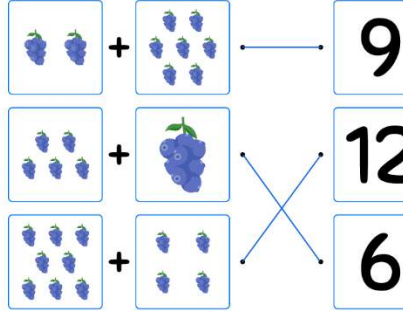

- Barbara Cabrera

MATCH CARDS

1. Matching is the process wherein we put together any two items based on some common ground.
2. The process of matching is done on two items, is mainly used in order to compare two different items.
3. To teach matching skills, we can provide 2 sets of objects, the one on the left side being the actual objects while the ones on the right being an outline of the objects on the left.
