2nd Grade Measurement Worksheets

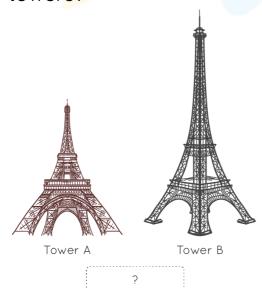

1) Write the length of the comb.

2) After drawing a picture, Adam's pencil got smaller. What length of the pencil did he use?

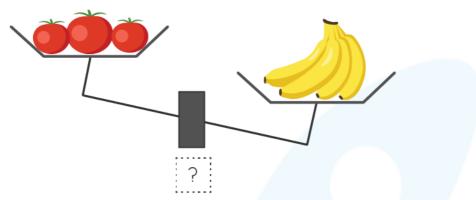

- 3) The height of tower A is 2341 units. The height of tower B is 4532 units.
 - a) Which tower is taller?
 - b) What is the difference in height between the two towers?

- 4) Jim cycles for 80 units a day and walks for 70 units. Sarah cycles for 90 units a day and walks for 50 units. Who covers more distance? What is the total distance covered?
- 5) Look at the weighing scale and answer the following question.

Weight of the bananas_____ Weight of tomatoes.

6) Compare and put the appropriate sign.

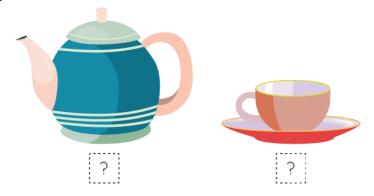

- 7) Tick the correct estimate.
 - a) The approx. weight of a pen cap is about

1 unit 100 units

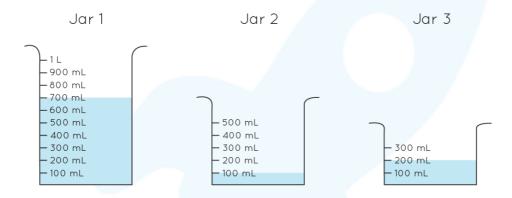

b) The approx. weight of a text book is about 3000 units 300 units

8) Tick the container that can hold more liquid.

9) Three jars of different capacities are shown in the picture below.

- a) Which Jar has the highest capacity?
- b) If the water in Jar 3 is poured into Jar 2, how much amount of water will be there in Jar 2?
- 10) Tick the better estimate.
 - a) The approx. capacity of a soup bowl is about 240 units 2400 units
 - b) The approx. capacity of a bucket is about 1000 units 10 units

Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect.

She is extremely patient and generous with Miranda."

- Gary Schwartz

- Kirk Riley

- Barbara Cabrera

ANSWERS

| 1) | 11 Units |
|----|---|
| 2) | 4 Units |
| 3) | Tower B is taller The difference in their heights is 2191 units |
| 4) | Jim covers more distance. The distance covered is 150 units. |
| 5) | > (Greater than) |
| 6) | < (Lesser than) |

| 7) | 1 unit 300 units |
|-----|-------------------------|
| 8) | |
| 9) | Jar 1 300 units |
| 10) | 240 units 1000 units |

FUN FACT

- 1. The word "measurement" is derived from the Greek word "metron," which means a limited proportion.
- 2. Measurement refers to the comparison of an unknown quantity with a known quantity.
- 3. We can measure the length, weight, and capacity (volume) of any given object.
