Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

FUN FACT

- 1) Did you look into an interesting relationship between equivalent fractions? The product of the numerator of the first [fraction](#) and the denominator of the second fraction is equal to the product of the denominator of the first fraction and the numerator of the second fraction.
- 2) When the parts of the whole are unevenly divided, they don't form fractions.
- 3) Did you know the word fraction comes from the Latin word "fractio" which means to break?
