Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

**ANSWERS**

1)	a.
2)	a.
3)	31
4)	No
5)	Odd numbers - 35, 47 Even numbers - 42, 50
6)	b.

7)	a.
8)	b.
9)	b.
10)	c.

FUN FACT

1. Adding two odd numbers, gives an even number. For example, $1 + 3 = 4$.
2. Adding two even numbers, gives an even number. For example, $2 + 4 = 6$.
3. Adding an even number and an odd number, gives an odd number. For example, $2 + 1 = 3$.
