## PAIRS OF ANGLES WORKSHEETS

Q.1 The combination of the following figures form supplementary angles?

- a. True
- b. False

Q.2 What is the complement angle of 15 degrees?

Q.3 From the following diagram, which two angles have the same measurement?

- a.  $\angle a$  and  $\angle c$
- b.  $\angle d$  and  $\angle b$
- c. Both a and b
- d. None of these.

Q.4 The angle made by a compass is \_\_\_\_\_ angle.

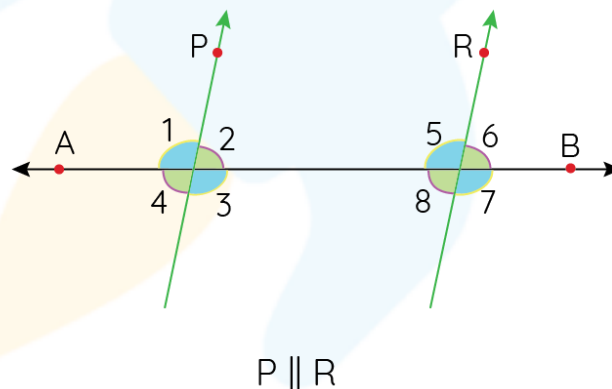

Q.5 Determine the angles. If two supplementary angles are in the ratio of 2:3.

Q.6 Which angles are alternate interior angles?

- $\angle DFE$  and  $\angle GFI$
- $\angle EFI$  and  $\angle JIF$
- $\angle DIE$  and  $\angle DFI$
- $\angle HIK$  and  $\angle JIK$

Q.7 Observe the figure and answer the questions.

Write the angles that form a corresponding angle pair with  $\angle 7$ .

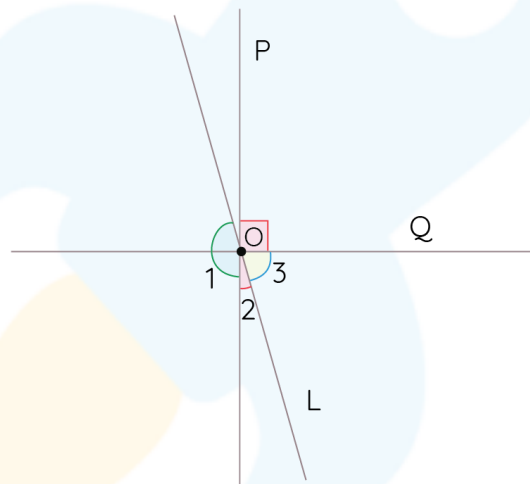

Q.8 solve:

If  $a = (3x)^\circ$  and  $b = (30 + 2x)^\circ$  are supplementary angles, then what will be the value of  $x$ ?

Q.9 Sam wants to identify the pair of alternate exterior angles of  $\angle APX$  and of  $\angle BPX$  in the following diagram given that  $AB \parallel CD$ ?

Q.10 In the following figure P and Q are two perpendicular lines that intersect at O. Through O, another straight line L is drawn; some angles thus formed have been marked. If  $\angle 3 : \angle 2 = 4 : 1$ , what is the value of  $\angle 1$ ?

When you learn math  
in an interesting way,  
you never forget.

## Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

**ANSWERS**

1. True	2. 75 degrees	3. c.Both a and b	4.acute	5.72 degrees And 108 degree
6. b. $\angle EFI$ and $\angle JIF$	7. $\angle 3$	8. $X = 30$	9. $\angle DQY$ and $\angle CQY$	10. 1440
