PIE GRAPH WORKSHEET IV

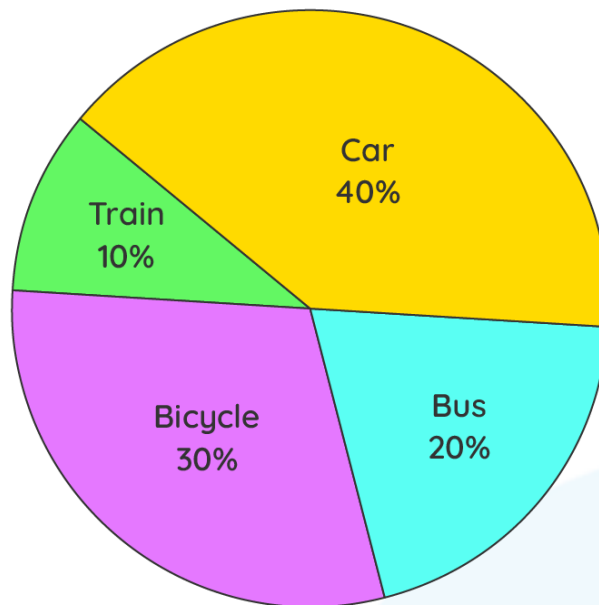

The pie graph shows the information about number of masks sold by a vendor in a week.

Answer the following questions based on the information given below:

- 1) What is the percentage of the masks sold on Tuesday?
- 2) What percentage of masks sold on Friday?
- 3) On which day, masks were sold the most?
- 4) On which day 240 masks were sold?
- 5) What fraction masks were sold on Monday?

Below is the pie graph of percentage of mode of transportation selected by people in a city.

Use the graph to answer the following questions:

- 6) Which of the mode is least preferred?
- 7) Find the percentage of the most favored mode?
- 8) Which mode is preferred higher than bicycle?
- 9) Find out the percentage difference in the highest preferred mode to the least preferred mode.
- 10) Find the total types of transportation modes available in that city.

Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

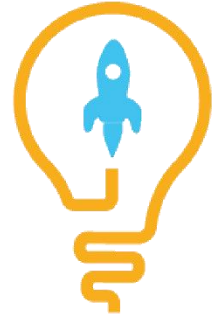

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

**ANSWERS**

1)	10 %
2)	20 %
3)	Wednesday
4)	Friday
5)	$\frac{3}{20}$
6)	Train
7)	40 %
8)	Car
9)	30 %
10)	4

FUN FACT

1. The idea of this system was developed in 1637 in two works by Descartes.
2. Cartesian coordinate system is a coordinate system used to place points on a cartesian plane using two numbers, usually called the x-coordinate and the y-coordinate.
3. The name Cartesian comes from the French mathematician and philosopher René Descartes, who worked to merge algebra and Euclidean geometry.
