Probability of Compound Events Worksheets

- 1) A glass jar contains 7 red, 5 green, 9 blue and 13 yellow marbles. If a single marble is picked at random from the jar, what is the probability of it being a blue marble?
- 2) A coin is tossed 400 times, and gets heads for 320 times, tails for 120 times. What is the probability of getting a tale?

Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera
