7TH GRADE PROBABILITY WORKSHEETS

1. When three coins are tossed, list the total number of outcomes?
2. The Probability can have both positive and negative values as answers? (True / False)

$$\text{Probability} = \frac{\text{Favourable outcomes}}{\text{Possible outcomes}}$$

3. The probability values can be expressed in one of the following formats.
(a) Decimals (b) Fractions (c) Percentages (d) All of these
4. When a dice is rolled, what is the probability of getting a composite number?
5. What is the probability of getting a sum of outcomes as 11, when two dice are rolled?
6. Choose a number at random from 21 to 40. What is the probability that the number chosen is even?
(a) $\frac{2}{3}$ (b) $\frac{1}{2}$ (c) $\frac{2}{5}$ (d) $\frac{3}{5}$
7. The probability of Ron passing an exam is 67%. What is the probability of Ron failing in the examination?

8. In a lottery, there are 8 prizes and 23 blanks. A lottery is drawn at random. What is the probability of getting a prize?
(a) $7/30$ (b) $11/31$ (c) $8/31$ (d) $13/30$
9. In a single throw of a dice, what is the probability of getting a number greater than 2?
(a) $\frac{1}{2}$ (b) $1/3$ (c) $2/3$ (d) $1/4$
10. What is the probability that a number selected from numbers $1, 2, 3, \dots, 30$, is a prime number, when each of the given numbers is equally likely to be selected?
(a) $3/10$ (b) $4/15$ (c) $1/3$ (d) $11/30$
11. In a class, there are 25 boys and 15 girls. If a student is selected at random, what is the probability that the student is a boy?
(a) $2/7$ (b) $5/7$ (c) $5/8$ (d) $3/7$
12. A box contains 30 electric bulbs, out of which 12 are defective. If a bulb is picked at random, what is the probability that it is a defective bulb?
(a) $1/5$ (b) $2/5$ (c) $4/15$ (d) $3/10$
13. In a class, 40% of the students opted French, 50% opted English and 25% opted for both. If a student is selected at random, what is the probability that he has opted for either French or English?
(a) $2/5$ (b) $9/20$ (c) $11/15$ (d) $13/20$
14. An exam has multiple choice questions having more than one correct answer. A question has five options, and with two correct answers. What is the probability of getting the question right?
15. A number is selected at random from the first 200 natural numbers. Find the probability that the number drawn is a perfect cube.
(a) $3/25$ (b) $2/15$ (c) $1/40$ (d) $7/15$
16. A and B are required to solve a problem independently. If $2/3$ and $4/5$ are their respective probabilities of solving the problem, then find the probability that neither of them solves the problem.
(a) $1/15$ (b) $1/12$ (c) $1/20$ (d) $3/5$

17. A card is drawn from a pack of 52 cards. Find the probability that it is neither a king nor a jack.
(a) $11/26$ (b) $11/13$ (c) $\frac{1}{4}$ (d) $9/26$
18. In a throw of two dice, the probability of getting a sum of at most 4 is
(a) $7/36$ (b) $5/18$ (c) $5/36$ (d) $1/6$
19. How many three digit numbers can be formed using the digits 0, 1, 2, 3, 4, 5., if repetition of digits is allowed?
20. A course has 12 subjects, and the student has to clear atleast 5 courses to be promoted to the next semester. What is the probability of a particular student being promoted to the next semester?

**When you learn math
in an interesting way,
you never forget.**

25 Million

Math classes &

100K+

Students learning
Math the right way

20+ Countries

Present across USA, UK,
Singapore, India, UAE & more.

Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

**ANSWERS**

1)	8
2)	False
3)	(d) All of these
4)	$\frac{1}{3}$
5)	$\frac{1}{18}$
6)	(b) $\frac{1}{2}$

7)	33%
8)	(c) $8/31$
9)	(c) $2/3$
10)	(c) $1/3$
11)	(c) $5/8$
12)	(b) $2/5$
13)	(d) $13/20$

14)	$2/5$
15)	(c) $1/40$
16)	(d) $3/5$
17)	(b) $11/13$
18)	(d) $1/6$
19)	180
20)	$5/12$
