Math classes &  
counting

**100K+**

Students learning  
Math the right way

**20+ Countries**

Present across USA, UK,  
Singapore, India, UAE & more.

## Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

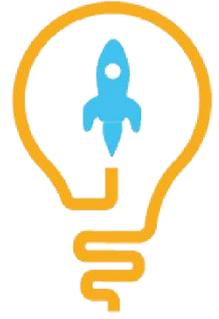

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

**ANSWERS**

1. 1:2	2. 3:4	3 a.) 13:19 > 14:21 3 b.) 2:31 > 1:31	4. \$160	5. 55
6 3:4	7. 2:1	8. 1:3	9. 140	10. 3:4

## FUN FACT

1. In ratio, the first term is called antecedent, and the second term is consequent.
2. Ratio of similar quantities has no unit whereas, ratio of different types of quantities, the ratio has units.
3. Golden ratio is a special type of ratio used in ancient times for the construction of buildings.
