## Rounding Worksheets 2nd Grade

1) What is the nearest hundred to the number 138?

2) Which among the following numbers when rounded off to the nearest hundred gives you 700?

a) 688 b) 792 c) 729 d) 642

a) only

a) and b) only

a) and c) only

a), b) and c).

3) Round off each number to the nearest hundred.

Number	Nearest hundred
89	
183	

4) Round off each number to the nearest hundred.

Number	Nearest hundred
423	
869	

5) Round off each number to the nearest hundred.

Number	Nearest hundred
5649	
7693	

6) Find the smallest three-digit number formed using the digits 6, 1, 3. Round off the number to the nearest hundred.

7) Round off the number 1222 to the nearest hundred from the number line given below.

8) Which of the following numbers when rounded off to the nearest hundred gives 4500?

a) 4454 b) 4435 c) 4476 d) 4413

- 1) (a) only
- 2) (a) and (b) only
- 3) (a) and (c) only
- 4) (a), (c) and (d).

9) Write down the smallest 4-digit number formed using the digits 5 and 6 and round it off to the nearest hundred.

10) Ron's teacher conducted a math quiz. She asked them to find a 3-digit number. She gave three clues to find them.

- 1) The number has digits 4, 1 and 2 in it.
- 2) The number has 2 in its tenth's place.
- 3) The number when rounded off to the nearest hundred gives the smallest 3-digit number.

Help Ron find out the number.

When you learn math  
in an interesting way,  
you never forget.

## Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

**ANSWERS**

1)	100
2)	a) and c) only
3)	100 200
4)	400 900
5)	5600 7700
6)	136 is the number. Rounding off to the nearest hundred we get 100.

7)	1200
8)	a) and c) only
9)	5566 is the number. Rounding off to the nearest hundred gives 5600.
10)	The number is 124

## FUN FACT

1. Rounding concept can be easily learnt by drawing a number line with the number being rounded off and finding to which hundred the number is very nearby.
2. If the number of guests for a party is 293 then we may round it off and make it 300 for better planning and execution.
3. When we are unsure about a number, and have only an approximate number, then we can use the concept of rounding off to know
