## 1<sup>st</sup> Grade Shapes Worksheets

1. Tick the shapes that have sides.

2. Match the shape to its name.

Triangle

Square

Circle

Rectangle

3. What shape is this?

a) Triangle   b) square   c) rectangle

4. How many sides and how many corners does this shape have?

\_\_\_\_\_ Sides and \_\_\_\_\_ corners.

5. Identify the shapes that have sides and corners. Tick below.

6. James made a new shape by putting 2 rectangles together. What shape did he make? \_\_\_\_\_

- a) Rectangle
- b) Triangle
- c) Circle

7. Which shapes are used to make this square?

- a) 2 squares
- b) 4 rectangles
- c) 4 squares

8. Color the shapes that have straight sides.

9. Color the triangles and count them.

Number of triangles = \_\_\_\_\_

10. Color the shapes using different colors and identify the shapes.

**When you learn math  
in an interesting way,  
you never forget.**

**25 Million**

Math classes &  
counting

**100K+**

Students learning  
Math the right way

**20+ Countries**

Present across USA, UK,  
Singapore, India, UAE & more.

## Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

ANSWERS

<p>1)</p>	
<p>2)</p>	
<p>3)</p>	<p>b) square</p>
<p>4)</p>	<p><u>4</u> sides and <u>4</u> corners. No. The corners are not straight.</p>
<p>5)</p>	

6)	James has made a <b><u>rectangle</u></b> .
7)	(c) <u>4 squares</u> are used to make this square.
8)	
9)	 <p>Number of triangles = 15</p>
10)	The shapes seen in the clown are triangles, rectangles, ovals, circles, diamonds and rectangles.

## FUN FACT

1. A shape can be two-dimensional (2D) or three-dimensional (3D).
2. 3D shapes have a length, a width, and a height.
3. 2D shapes have only two of these measurements.
