1) Add and write the total number of oranges.

```
+ =
```

2) Add and write the total number of potatoes.

```
[ ] + [ ] = [ ]
```

3) Count and find the sum.

```
blue squares = ------
yellow squares = ------
blue + yellow squares = ------
```
4) Count the number in each group and add them. Write the addition statement.

\[
\begin{array}{c|c}
\text{Group 1} & \text{Group 2} \\
\hline
\text{Moto} & \text{Moto} \\
\text{Moto} & \text{Moto} \\
\end{array}
\]

\[-\quad + \quad -\quad =\]

5) Show the addition on the number line.
   a) \(4 + 3\)

\[
\begin{array}{ccccccccccc}
1 & 2 & 3 & 4 & 5 & 6 & 7 & 8 & 9 & 10 \\
\end{array}
\]

b) \(2 + 8\)

\[
\begin{array}{ccccccccccc}
1 & 2 & 3 & 4 & 5 & 6 & 7 & 8 & 9 & 10 \\
\end{array}
\]

6) Fill in the number pyramid.

\[
\begin{array}{c}
6 \\
\hline
1 & 4 \\
\end{array}
\]
7) Fill in the number pyramid.

\[
\begin{array}{ccc}
& & \\
& 7 & \\
2 & & 2
\end{array}
\]

8) Write addition statements for the given 3 numbers 8, 2, 10.

9) Which is not a way to make 4?
   \( 4 + 0 \quad 2 + 2 \quad 3 + 1 \quad 4 + 1 \)

10) Add as directed:
ADDITION FOR KIDS

\[ \text{★} = 1 \quad \text{★} = 2 \quad \text{★} = 3 \quad \text{★} = 4 \]

\[ \text{★} + \text{★} = \quad \text{★} + \text{★} = \quad \text{★} + \text{★} = \quad \text{★} + \text{★} = \]

Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

1. Do you know that repeated addition is multiplication?

2. Add 1 to any number gets you the successor of the number.

3. Changing the order of the addends doesn't change the sum.
