Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

FUN FACT

1. The easiest way to do skip counting is to know the multiplication table of the number being skip counted.
2. Skip counting by 10 is the same as skip counting by 1, except adding a 0 at the end of the result.
3. Skip counting by 100 is the same as skip counting by 1, except adding 00 at the end of the result.
