## Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

## FUN FACT

1. A number line helps us to subtract easily by jumping in the backward direction.
2. We can write a subtraction problem as an addition problem. For example,  $7 - 2 = 5$  can be written as  $2 + 5 = 7$ .
3. When we subtract 1 from a number, we get the '**predecessor**' of the number.
