FUN FACT

1. The terms such as "Minus", "Less", "Difference", "Decrease", "Take Away" and "Deduct" mean that you usually need to subtract one number from the other.

2. Do you know that when we subtract 0 from any number, the difference is the number itself?

3. When we subtract 1 from a number, the difference is the predecessor of the given number. For example, 54-1 = 53.
