- 1) Given 3 numbers, we can write 2 subtraction facts. Example: given 3, 5, 8 we get 2 statements.  $8-5=3$  and  $8-3=5$
- 2) Subtraction of small numbers can be done horizontally and that of large numbers can be done vertically in columns under the place value chart.
- 3) Subtraction is counting backwards and do you know that repeated subtraction is division?
