## FUN FACT

- 1) Subtraction is counting backwards and do you know that repeated subtraction is division?
- 2) 3 numbers, we can write 2 subtraction facts. Example: given 3, 5, and 8 we get 2 statements.  $8 - 5 = 3$  and  $8 - 3 = 5$
- 3) Subtraction of small numbers can be done horizontally and that of large numbers can be done vertically in columns under the place value chart.
