Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

6)	
7)	18
8)	a.
9)	a.
10)	b.

FUN FACT

1. For numbers from 1 to 99, which have the same starting digit, have the same number of tens. For example, 20 and 26, both have 2 tens.

2. The place value and face value of a number are not same.

3. In olden times, only three cultures were acquainted with place value system, the Mayans, the Babylonians and the Hindu people of India.
